

Courtesy Snow Berm Removal

Although residents and property owners are responsible for maintaining access to their own driveways and walkways, including snow and ice removal, we understand that not everyone is medically or financially able to do so. Our Courtesy Snow Berm Removal list was developed to help these residents.

Please note that our crews can't clear any berms until after the regular business of plowing Town maintained streets is finished. If you are able to clear your own drive, have a friend or neighbor who is willing to help you, or you are financially able to hire someone, we encourage you to do so. **Please have a licensed medical professional fill out the "Physician Certification" portion of your application, verifying that you require assistance to perform heavy physical tasks (such as snow removal).**

To qualify for inclusion on the Courtesy Snow Berm Removal list, you must meet all of the following qualifications:

- **You have a licensed medical professional certify that you are physically unable to shovel snow;**
- **You don't have a 4-wheel drive vehicle available for your use;**
- **You don't have a family member, friend, or neighbor to shovel your driveway;**
- **You are a full-time winter resident.**

Applications can be mailed to the Town of Pinetop-Lakeside or dropped off at the Town Municipal Building at:

958 S. Woodland Rd.
Lakeside, AZ 85929.

Please remember, if you have an emergency, call 911.
